FOR IMMEDIATE RELEASE

TPG GOLF Announces Launch of FlightScope Tour Xi 3D Radar

Saint Johns, Florida- June 8, 2019 - Today, TPG Golf announced the launch of the FlightScope Tour Xi Series 3D Radar, enabling TPG coaches the ability to provide PGA Tour level swing analysis, ball flight tracking, club fitting and skill development to players who play at train at TPG Golf.

“Our team is very excited about our partnership with FlightScope and the addition of the FlightScope Xi Tour to help our players reach their full potential. The combination of ball launch, club and swing data provides a powerful tool for our team to develop player skills and provide the level of detail necessary to compete at the elite level.” Rob Bannon, President

The FlightScope Tour Xi Series 3D Radar is a state-of-the-art golf coaching radar which provides teachers 27 separate club, swing, ball and launch data to help show ball flight information based on club path, angle of attach and face angle at impact.
